

All AC High volume engine room fans come standard with:

- Aluminium housing (5083 grade) powder coated to your required colour
- Synthetic impeller with aluminium hub
- Sealed marinized motor
- Optional VSD "Air-On-Demand" system available
- 316 stainless steel fasteners
- Motors available in 3 phase or single phase (both multi voltage)
- Bolt hole pattern to match other Marine air flow products
- Install kit complete with everything to fit up to your vessel
- Supplied with a full replacement 3 year warranty

Why Engine Room Fans?

- Cooler operating conditions which can lead to increased performance.
- Can extend the life of valuable plant and engine room components.
- Custom made to suit your requirements.
- Supplied with full installation kit and instructions.
- Variable speed controllers available as an optional extra.

Accessories such as finger guards and air diverters are available for both our AC and DC High Volume Fans
